Xurpas Inc. receives Third Consecutive Golden Arrow Award for exemplary Corporate Governance

Manila, Philippines, 17 October 2024 — Xurpas Inc., a leading Philippines technology solutions provider, has once again been recognized for its strong corporate governance practices and standards, receiving its third consecutive Golden Arrow Award from the Institute of Corporate Directors (ICD) at the recently concluded 2023 Golden Arrow awards ceremony. This prestigious accolade underscores Xurpas' commitment to transparency, accountability, and ethical business practices.

The Golden Arrow is awarded to publicly listed companies for excellence in corporate governance based on five key areas of the ASEAN Corporate Governance Scorecard (ACGS), namely: rights of shareholders, equitable treatment of shareholders, role of stakeholders, disclosure and transparency, and responsibilities of the board. Xurpas' consistent achievement reflects its dedication to upholding the highest governance standards, placing the company among an elite group of recognized industry leaders.

Xurpas' President Alexander D. Corpuz accepted the award. He shared, "We are truly honored to receive this award for the third consecutive year. Our team's dedication to ethical practices and hard work has made this recognition possible. At Xurpas, strong corporate governance is fundamental to our long-term growth as we continue driving innovation with integrity and transparency."

Xurpas is expanding its business solutions and digital transformation product offerings through the incorporation of data science and artificial intelligence in its portfolio. Together with new ventures in Australia alongside ongoing projects in the Philippines, Xurpas is set to bring cutting-edge solutions to a broader international market.

To further ensure that the company's leadership remained informed and are prepared to navigate emerging technologies responsibly, Xurpas' Board of Directors attended the ICD's Global Governance Summit held last September 19.

Xurpas' mission to help businesses in their digital transformation journey, while maintaining stakeholder trust remains paramount. "As we innovate in fields like artificial intelligence, robust governance ensures that our technologies are impactful and responsible," said Dr. Christopher Monterola, Independent Director at Xurpas, and a recognized leader in the field of data science and AI. "Balancing rapid advancement with ethical decision-making is crucial as we push the boundaries of AI development."

Xurpas has made remarkable strides in recent years, notably with the launch of Xurpas AI Lab (XAIL). This initiative empowers businesses to harness AI for practical solutions, leveraging data science and AI to further drive digital transformation across industries.

###

About Xurpas Inc.:
