XURPAS INC. AND SUBSIDIARIES

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

Xurpas Inc. (the Parent Company or Xurpas) was incorporated in the Philippines and registered with the Securities and Exchange Commission (SEC) on November 26, 2001. The principal activities of the Parent Company and its subsidiaries (collectively referred to as the Group) are to develop, produce, sell, buy or otherwise deal in products, goods or services in connection with the transmission, receiving, or exchange of voice, data, video or any form or kind of communication whatsoever.

The Parent Company's registered office address and principal place of business is at Unit 804 Antel 2000 Corporate Center, 121 Valero St. Salcedo Village, Makati City.

On December 2, 2014, the Parent Company's shares of stock were listed in the Philippine Stock Exchange (PSE).

The accompanying interim condensed consolidated financial statements were approved and authorized for issue by the Board of Directors (BOD) on July 17, 2026.

2. Summary of Significant Accounting Policies

Basis of Preparation

The interim condensed consolidated financial statements of the Group as at March 31, 2026 and for the three-month periods ended March 31, 2026 and 2025, have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting*.

Accordingly, the interim condensed consolidated financial statements do not include all of the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group's annual audited consolidated financial statements as at and for the year ended December 31, 2025.

The interim condensed consolidated financial statements are presented in Philippine Peso (₱), the Group's presentation currency. All amounts were rounded-off to the nearest Peso, except when otherwise indicated. The interim condensed consolidated financial statements have been prepared under the historical cost basis, except for except for financial assets at fair value through other comprehensive income (FVOCI), available-for-sale (AFS) financial assets which have been measured at fair value and financial liabilities at fair value through profit or loss (FVPL).

Statement of Compliance

The accompanying interim condensed consolidated financial statements of the Group as at March 31, 2026 and December 31, 2025 and for the three-month periods ended March 31, 2026 and 2025 have been prepared in accordance with Philippine Financial Reporting Standards (PFRS).

Basis of Consolidation

The accompanying consolidated financial statements include the accounts of Xurpas Inc. and its subsidiaries as at March 31, 2026 and December 31, 2025.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect that return through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee),
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other voter holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls and investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group obtains control until the date the Group ceases to control the subsidiary.

Noncontrolling interests ("NCI") represent the portion of profit or loss and net assets in a subsidiary not wholly owned and are presented separately in the consolidated statement of comprehensive income and consolidated statement of changes in equity and within equity in the consolidated statement of financial position, separately from the Parent Company's equity.

Total comprehensive income within a subsidiary is attributed to the noncontrolling interest even if that results in a deficit balance.

The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company, using consistent accounting policies.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary, the carrying amount of any noncontrolling interest and the cumulative translation differences recorded in equity.
- Recognizes the fair value of the consideration received, the fair value of any investment retained and any surplus or deficit in profit or loss.
- Reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss or retained earnings, as appropriate.

As at March 31, 2025 and December 31, 2024, the consolidated financial statements comprise the financial statements of the Parent Company and the following subsidiaries:

	Percentage Ownership		Principal Activities
	March 31, 2026	December 31, 2025	
Xeleb Technologies Inc. (formerly Fluxion, Inc.) (Xeleb Tech)	100.00%	100.00%	Enterprise services and mobile consumer services
Xeleb Inc. (Xeleb)	100.00	100.00	Mobile consumer services
Seer Technologies, Inc. (Seer)	70.00	70.00	Enterprise services
Codesignate Inc. (Codesignate)*	52.50	52.50	Enterprise services
Storm Technologies, Inc. (Storm)	51.31	51.31	Human resource management
Pt. Storm Benefits Indonesia (Storm Indonesia)**	51.31	51.31	Human resource management
Allcare Technologies, Inc.***	35.35	35.35	Human resource management

(Forward)

	Percentage Ownership		Principal Activities
	March 31, 2026	December 31, 2025	
Xurpas Enterprise Inc. (Xurpas Enterprise)	100.00	100.00	Enterprise services
Art of Click Pte. Ltd. (AOC)	100.00	100.00	Mobile consumer services
ODX Pte. Ltd. (ODX)	100.00	100.00	Enterprise services
			Enterprise services and mobile
Xurpas Software Inc. (XSI)	100.00	100.00	consumer services

Xurpas Pte. Ltd. [formerly Altitude Games Pte. Ltd. (AGPL)]	100.00	100.00	Mobile consumer services
<i>*Codesignate is a 75%-owned subsidiary of Seer. The Group's effective ownership over Codesignate is 52.50%. The Group has determined that it has control over the entity and consolidates the entity on this basis.</i>			
<i>**Storm Indonesia is 100%-owned subsidiary of Storm Technologies Inc.</i>			
<i>***Storm has 68.90% ownership over Allcare. The Group's effective ownership over Allcare is 35.35%. The Group has determined that it has control over the entity (see "Judgements" in Note 3)</i>			

All subsidiaries are domiciled in the Philippines except for Storm Indonesia, which is domiciled in Indonesia, and AOC and ODX, which are domiciled in Singapore, and XAU domiciled in Australia.

Xeleb Technologies, Inc.

Xeleb Technologies was organized to primarily engage in the business of mobile content development. On September 11, 2019, the BOD of the Parent Company approved the dissolution of Xeleb Technologies.

As at March 31, 2026, Xeleb Technologies has yet to apply for the approval of government regulatory agencies for its dissolution.

Xeleb Inc.

On July 14, 2015, the Parent Company incorporated Xeleb, a mobile games company domiciled in the Philippines. On September 11, 2019, the BOD of the Parent Company approved the dissolution of Xeleb.

As at March 31, 2026, Xeleb has yet to apply for the approval of government regulatory agencies for its dissolution.

Seer

On June 25, 2015, the Parent Company acquired 70,000 common shares representing 70.00% stake holdings in Seer, a software consultancy and design company, at a price of 18.00 million. Seer was engaged in the business of software development, software marketing and sales, software package implementation, system integration and support, systems architecture, system analysis and design, database design, database administration, applications hosting, and related project management, consultancy and education services.

Storm

Storm's primary purpose is to create, develop and maintain an online platform that allows companies to exchange their current human resources benefits given to employees and transform them into a wide range of products and services, provide client management services, data management and information processing services, software network management services, software development services, consultancy, project and program management, marketing solutions, information technology services and business process outsourcing services to various companies.

In 2022, Storm suspended the operation of its online Flex Benefits platform.

Xurpas Enterprise Inc.

On March 23, 2016, the Parent Company incorporated Xurpas Enterprise. Xurpas Enterprise shall primarily engage in the business of software development including designing, upgrading and marketing all kinds of information technology systems or parts thereof and other related services.

AOC

On October 6, 2016, the Parent Company signed a Share Purchase Agreement for the acquisition of 100% stake in Art of Click for an aggregate consideration of ₱1.94 billion in cash and in Parent Company's shares. AOC is engaged in the business of mobile media agency that offers a marketing platform for advertisers.

On March 30, 2020, the BOD of the Parent Company approved the suspension of business operations of AOC.

ODX

In 2018, the Parent Company incorporated a wholly-owned subsidiary in Singapore, ODX, with the following principal activities: 1) other information technology and computer service activities (e.g., disaster recovery services) and 2) development of software for interactive digital media (except games).

ODX's platform, which will be an open data marketplace using blockchain technology, is under development. ODX has not started commercial operations as of March 31, 2026.

XSI

On April 18, 2023, the Parent Company incorporated XSI with the primary purpose of designing, developing, testing, building, marketing, distributing, maintaining, supporting, customizing, selling and/or re-selling applications, games, software, cybersecurity software tools, digital solutions, whether internet, mobile, or other handheld applications, portals, hardware and other related products and services, except internet provider services, both for proprietary and custom development purposes.

XSI's registered office address and principal place of business is Office 3 Genesis Building Pueblo De Panay Township Lawa-an, Roxas City, Capiz.

XAU

On July 25, 2023, the Parent Company incorporated Xurpas Pty. Ltd., a wholly-owned subsidiary based in Australia, which aims to offer the Group's products and services in the said country. As of report date, XAU has not started its commercial operation. XAU has started its commercial operation in October 2024.

Xurpas Pte. Ltd. [formerly Altitude Games Pte. Ltd. (AGPL)]

AGPL is a computer game development and publishing company based in Singapore, which was acquired by the Parent Company in 2024 as a 21.17% owned associate. In October 2023, the Parent Company executed transfer deeds through which the remaining 78.83% ownership of AGPL was transferred from its shareholders, making AGPL a wholly owned subsidiary.

On June 14, 2024 AGPL changed its corporate name to Xurpas Pte. Ltd.

Changes in Accounting Policies and Disclosures

The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those of the previous financial year except for the new PFRS, amended PFRS and improvements to PFRS which were adopted beginning January 1, 2026. Adoption of these new standards and amendments did not have any significant impact on the consolidated financial position or performance unless otherwise indicated.

- Amendments to Illustrative Examples of PFRS 7, PFRS 18, PAS 1, PAS 8, PAS 26 and PAS 37, *Disclosures about Uncertainties in the Financial Statements*
- Amendments to PFRS 9 and PFRS7, *Classification and Measurement of Financial Instruments*
- Annual Improvements to PFRS Accounting Standards – Volume 11
 - o Amendments to PFRS 1, *Hedge Accounting by a First-time Adopter*
 - o Amendments to PFRS 7, *Gain or Loss on Derecognition*
 - o Amendments to PFRS 9, *Lessee Derecognition of Lease Liabilities and Transaction Price*
 - o Amendments to PFRS 10, *Determination of a 'De Facto Agent'*
 - o Amendments to PAS 7, *Cost Method*

Standards and Interpretations Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. The Group does not expect that the future adoption of the said pronouncements will have a significant impact on its interim consolidated financial statements. The Group intends to adopt the following pronouncements when they become effective.

Effective beginning on or after January 1, 2027

- PFRS 17, *Insurance Contracts*
- PFRS 18, *Presentation and Disclosure in Financial Statements*

The standard replaces PAS 1 Presentation of Financial Statements and responds to investors' demand for

better information about companies' financial performance. The new requirements include:

- o Required totals, subtotals and new categories in the statement of profit or loss
- o Disclosure of management-defined performance measures
- o Guidance on aggregation and disaggregation

- PFRS 19, *Subsidiaries without Public Accountability*
- Amendments to PAS 21, *Translation to a Hyperinflationary Presentation Currency*

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

Current and Noncurrent Classification

The Group presents assets and liabilities in the consolidated statement of financial position based on current / noncurrent classification. An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash and cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as noncurrent.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as noncurrent.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities, respectively.

Cash

Cash includes cash on hand and in banks. Cash in bank earns interest based on the prevailing bank deposit rates.

Fair value measurement

Fair value is the estimated price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy (see Note 24).

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization

(based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Financial Instruments - initial recognition and subsequent measurement

Date of recognition

The Group recognizes a financial asset or a financial liability in the consolidated statement of financial position when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the settlement date.

a. Financial assets

Initial recognition of financial instrument

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, FVOCI and FVPL.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. The Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs. Trade receivables are measured at the transaction price determined under PFRS 15. Refer to the accounting policies on revenue from contracts with customers.

In order for a financial asset to be classified and measured at amortized cost or FVOCI, it needs to give rise to cash flows that are SPPI on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at FVOCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at FVOCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at FVPL

Financial assets at amortized cost

The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

The Group's financial assets at amortized cost includes "Cash" and "Accounts and other receivables" (except for "Advances to employees" which are subject to liquidation), "Refundable deposits" under other current assets, and "Cash bond" under other noncurrent assets.

Financial assets at FVOCI (debt instruments)

The Group measures debt instruments at FVOCI if both of the following conditions are met:

- The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For debt instruments at FVOCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognized in the consolidated statement of comprehensive income and computed in the same manner as for financial assets measured at amortized cost. The remaining fair value changes are recognized in OCI. Upon derecognition, the cumulative fair value change recognized in OCI is recycled to profit or loss.

The Group has not designated any financial assets under this category.

Financial assets at FVOCI (equity instruments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at FVOCI when they meet the definition of equity under PAS 32, *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as other income in profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at FVOCI are not subject to impairment assessment.

The Group elected to classify irrevocably its quoted and unquoted equity investments under this category.

Financial assets at FVPL

Financial assets at FVPL include financial assets held for trading, financial assets designated upon initial recognition at FVPL, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at FVPL, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortized cost or at FVOCI, as described above, debt instruments may be designated at FVPL on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at FVPL are carried in the consolidated statement of financial position at fair value with net changes in fair value recognized in the consolidated statement of comprehensive income.

This category includes derivative instruments and listed equity investments which the Group had not irrevocably elected to classify at FVOCI. Dividends on listed equity investments are also recognized as other income in profit or loss when the right of payment has been established.

The Group has designated its unquoted debt investments under this category.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the statement of financial position) when:

- The rights to receive cash flows from the asset have expired
- Or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of Financial Assets and Contract Assets

The Group recognizes an allowance for ECLs for all debt instruments not held at FVPL and contract assets. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix for trade receivables and contract assets that is based on historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For other financial assets such as receivable from related parties, other receivables, refundable deposits under other current assets, cash bond under other noncurrent assets and financial assets at FVOCI (debt instruments), ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For cash, the Group applies the low credit risk simplification. The probability of default and loss given defaults are publicly available and are considered to be low credit risk investments. It is the Group's policy to measure ECLs on such instruments on a 12-month basis. However, where there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL.

The key inputs in the model include the Group's definition of default and historical data of three years for the origination, maturity date and default date. The Group considers trade receivables and contract assets in default when contractual payment are 90 days past due, except for certain circumstances when the reason for being past due is due to reconciliation with customers of payment records which are administrative in nature which may extend the definition of default to 90 days and beyond. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group.

Determining the stage for impairment

At each reporting date, the Group assesses whether there has been a significant increase in credit risk for financial assets since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition. The Group considers reasonable and supportable information that is relevant and available without undue cost or effort for this purpose. This includes quantitative and qualitative information and forward-looking analysis.

The Group considers that there has been a significant increase in credit risk when contractual payments are more than 60 days past due.

An exposure will migrate through the ECL stages as asset quality deteriorates. If, in a subsequent period, asset quality improves and also reverses any previously assessed significant increase in credit risk since origination, then the loss allowance measurement reverts from lifetime ECL to 12-month ECL.

b. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at FVPL, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include "Accounts and other payables" (except "Deferred output VAT", "Taxes payable" and provision relating to PSA and statutory payables included as "Others"), "Loans payable" and other

obligations that meet the above definition (other than liabilities covered by other accounting standards, such as income tax payable).

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at FVPL

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by PFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Financial liabilities are only designated as at FVPL when one of the following criteria are met. Such designation is determined on an instrument-by-instrument basis:

- The designation eliminates, or significantly reduces, the inconsistent treatment that would otherwise arise from measuring the liabilities or recognizing gains or losses on them on a different basis; or
- The liabilities are part of a group of financial liabilities which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy; or
- The liabilities contain one or more embedded derivatives, unless they do not significantly modify the cash flows that would otherwise be required by the contract, or it is clear with little or no analysis when a similar instrument is first considered that separation of the embedded derivative(s) is prohibited

Financial liabilities at FVPL are recorded in the statement of financial position at fair value. Changes in fair value are recorded in profit and loss with the exception of movements in fair value of liabilities designated at FVPL due to changes in the Group's own credit risk. Such changes in fair value are recorded in equity reserve through OCI and do not get recycled to the profit or loss. Interest earned or incurred on instruments designated at FVPL is accrued in interest income or interest expense, respectively, using the EIR, taking into account any discount/premium and qualifying transaction costs being an integral part of instrument.

Financial liabilities arising from amounts received under the Share and Token Allocation Agreement classified as "Nontrade payables" under "Accounts and other payables" were designated at FVTPL as it contains embedded derivatives.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit or loss.

This category generally applies to short-term debts.

Other Financial Liabilities

Issued financial instruments or their components, which are not designated at FVPL, are classified as accounts payable and accrued expenses where the substance of the contractual arrangement results in the Group having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares. The components of issued financial instruments that contain both liability and equity elements are accounted for separately, with the equity component being assigned the residual amount, after deducting from the instrument the amount separately determined as the fair value of the liability component on the date of issue.

After initial measurement, other financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the effective interest rate. Any effect of restatement of foreign currency-denominated

liabilities is recognized in profit or loss.

This accounting policy applies to the Group's "Accounts and other payables" (except "Deferred output VAT", "Taxes payable" and provision relating to PSA and statutory payables included as "Others") and other obligations that meet the above definition (other than liabilities covered by other accounting standards, such as income tax payable).

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in profit or loss.

c. Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position, if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Investments in Associates

The Group's investments in its associates are accounted for using the equity method of accounting. An associate is an entity in which the Group has significant influence and which is neither a subsidiary nor a joint venture.

The considerations made in determining significant influence are similar to those necessary to determine control over subsidiaries.

An investment is accounted for using the equity method from the day it becomes an associate. On acquisition of investment, the excess of the cost of investment over the investor's share in the net fair value of the associate's identifiable assets, liabilities and contingent liabilities is accounted for as goodwill and included in the carrying amount of the investment and not amortized. Any excess of the investor's share of the net fair value of the associate's identifiable assets, liabilities and contingent liabilities over the cost of the investment is excluded from the carrying amount of the investment, and is instead included as income in the determination of the share in the earnings of the associate.

Under the equity method, the investment in an associate is carried in the consolidated statement of financial position at cost plus post-acquisition changes in the Group's share in the net assets of the associate, less any impairment in values. The consolidated statement of comprehensive income reflects the share of the results of the operations of the associate company. The Group's share of post-acquisition movements in the associate's equity reserves is recognized directly in equity. Profits and losses resulting from transactions between the Group and the associate company are eliminated to the extent of the interest in the associate company and for unrealized losses to the extent that there is no evidence of impairment of the asset transferred. Dividends received are treated as a reduction of the carrying value of the investment.

The Group discontinues applying the equity method when their investment in associate company is reduced to zero. Accordingly, additional losses are not recognized unless the Group has guaranteed certain obligations of the associate company. When the associate company subsequently report net income, the Group will resume applying the equity method but only after its share of that net income equals the share of net losses not recognized during the period the equity method was suspended.

The reporting dates of the associates and the Group are identical and the associates' accounting policies conform to those used by the Group for like transactions and events in similar circumstances. When necessary, adjustments are made to bring the reporting dates and accounting policies in line with those of the Group.

Upon loss of significant influence over the associate, the Group measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognized in profit or loss.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation and amortization and any impairment in value. The initial cost of property and equipment comprises its purchase price and other directly attributable

costs of bringing the asset to its working condition and location for its intended use. Such cost includes the cost of replacing part of such property and equipment when that cost is incurred if the recognition criteria are met. It excludes the cost of day-to-day servicing.

Major repairs are capitalized as part of property and equipment only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the items can be measured reliably. All other repairs and maintenance are charged against current operations as incurred.

Depreciation and amortization is computed using the straight-line method over the estimated useful lives of the property and equipment which are as follows:

	Years
Transportation equipment	3
Office equipment	3 to 4
Information Technology (IT) equipment	3 to 4
Furniture and fixtures	3 to 5
Leasehold improvements	Useful life (3 to 5) or lease term, whichever is shorter

The estimated residual values, useful life and depreciation and amortization method are reviewed at least annually to ensure that the period and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

If there is an indication that there has been a significant change in depreciation and amortization rate or the useful lives, the depreciation of that property and equipment is revised prospectively to reflect the new expectations.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising from derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognized.

Fully depreciated property and equipment are retained in the accounts until they are no longer in use and no further depreciation is charged against current operations.

Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Cryptocurrencies which are not held in the ordinary course of business are recognized as intangible assets as these are identifiable non-monetary asset without physical substance.

Following initial recognition, intangible assets (other than cryptocurrencies) are carried at cost less any accumulated amortization and accumulated impairment losses. Cryptocurrencies are subsequently carried at revalued amount, being its fair value at the date of the revaluation less any accumulated impairment losses. Internally generated intangibles, excluding capitalized development costs, are not capitalized and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit or loss in the expense category that is consistent with the function of the intangible assets.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to

determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

The estimated useful lives of intangible assets follow:

	Years
Cryptocurrencies	Indefinite
Developed software	5 – 8

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in profit or loss when the asset is derecognized.

If the cryptocurrency's carrying amount is increased as a result of a revaluation, the increase shall be recognized in other comprehensive income and accumulated in equity under the heading of revaluation surplus. However, the increase shall be recognized in profit or loss to the extent that it reverses a revaluation decrease of the same asset previously recognized in profit or loss.

If the cryptocurrencies' carrying amount is decreased as a result of a revaluation, the decrease shall be recognized in profit or loss. However, the decrease shall be recognized in other comprehensive income to the extent of any credit balance in the revaluation surplus in respect of that asset. The decrease recognized in other comprehensive income reduces the amount accumulated in equity under the heading of revaluation surplus.

Research and Development Costs

Research costs are expensed as incurred. Development expenditures on an individual project are recognized as an intangible asset when the Group can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale;
- Its intention to complete and its ability and intention to use or sell the asset;
- How the asset will generate future economic benefits;
- The availability of resources to complete the asset; and
- The ability to measure reliably the expenditure during development.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for use. It is amortized over the period of expected future benefit. Amortization is recorded in cost of goods sold.

Business Combinations and Goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any noncontrolling interests in the acquiree. For each business combination, the Group elects whether to measure the noncontrolling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms' economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognized in profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of PAS 39, *Financial Instruments: Recognition and Measurement*, is measured at fair value with changes in fair value recognized either in either profit or loss or as a change to OCI. If the contingent consideration is not within the scope of PAS 39, it is measured in accordance with the appropriate PFRS. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognized for noncontrolling interests) and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

When goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination can be determined only provisionally by the end of the period in which the combination is effected because either the fair values to be assigned to the acquiree's identifiable assets, liabilities or contingent liabilities or the cost of combination can be determined only provisionally, the acquirer shall account for the combination using those provisional values. The acquirer shall recognize any adjustments to those provisional values as a result of completing the initial accounting within twelve months of the acquisition date as follows: (i) the carrying amount of the identifiable asset, liability or contingent liability that is recognized or adjusted as a result of completing the initial accounting shall be calculated as if its fair value at the acquisition date had been recognized from that date; (ii) goodwill or any gain recognized shall be adjusted by an amount equal to the adjustment to the fair value at the acquisition date of the identifiable asset, liability or contingent liability being recognized or adjusted; and (iii) comparative information presented for the periods before the initial accounting for the combination is complete shall be presented as if the initial accounting has been completed from the acquisition date.

Noncontrolling interests

In a business combination, as of the acquisition date, the Group recognizes, separately from goodwill, the identifiable assets acquired, the liabilities assumed and any noncontrolling interest in the acquiree. There is a choice of two measurement methods for those components of noncontrolling interests that are both present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of a liquidation. They can be measured at:

- a. acquisition-date fair value (consistent with the measurement principle for other components of the business combination); or
- b. at their proportionate share of the value of net identifiable assets acquired.

Combinations of Entities under Common Control

Business combinations of entities under common control are accounted for using the pooling of interests method. The pooling of interest method is generally considered to involve the following:

- The assets and liabilities of the combining entities are reflected in the consolidated financial statements at their carrying amounts. No adjustments are made to reflect fair values, or recognize any new assets or liabilities, at the date of the combination. The only adjustments that are made are those adjustments to harmonize accounting policies.
- No new goodwill is recognized as a result of the combination. The only goodwill that is recognized is any existing goodwill relating to either of the combining entities. Any difference between the consideration paid or transferred and the equity acquired is reflected within equity under the "Equity reserve" account.

The financial information in the consolidated financial statements are not restated for periods prior to the combination of the entities under common control.

Impairment of Nonfinancial Assets

The Group assesses at each financial reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses are recognized in the profit or loss in those expense categories consistent with the function of the impaired asset.

For assets excluding goodwill, an assessment is made at each financial reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the profit or loss unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

Investments in associates

The Group also determines at each reporting date whether there is any objective evidence that the investment in associate is impaired. If this is the case, the Group calculates the amount of impairment as being the difference between the recoverable amount and the carrying value of the associate company and recognizes the difference in profit or loss.

In assessing impairment indicators, the Group considers, as a minimum, the following indicators: (a) dividends exceeding the total comprehensive income of the associate in the period the dividend is declared; or (b) the carrying amount of the investment in the separate financial statements exceeding the carrying amount of the associate's net assets, including goodwill.

Intangible assets with indefinite useful life

Intangible assets with indefinite useful lives are tested for impairment annually, either individually or at the cash-generating unit level and when circumstances indicate that the carrying value may be impaired.

Impairment of goodwill

For assessing impairment of goodwill, a test of impairment is performed annually and when circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. Where the recoverable amount of the CGUs is less than its carrying amount, an impairment loss is recognized. Impairment losses relating to goodwill cannot be reversed in future periods.

Equity

Capital stock and additional paid-in capital

Capital stock is measured at par value for all shares issued. When the shares are sold at premium, the difference between the proceeds and the par value is credited to "Additional paid-in capital". When the shares are issued for a consideration other than cash, the proceeds are measured by the fair value of the consideration received. In case the shares are issued to extinguish or settle the liability of the Group, the shares are measured either at the fair value of the shares issued or fair value of the liability settled, whichever is more reliably determinable.

Direct costs incurred related to equity issuance are chargeable to "Additional paid-in capital" account. If additional paid-in capital is not sufficient, the excess is charged against retained earnings. The costs of an equity transaction that is abandoned are recognized as an expense.

Treasury shares

Own equity instruments which are reacquired (treasury shares) are recognized at cost and deducted from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized

in additional paid-in capital. Voting rights related to treasury shares are nullified for the Group and no dividends are allocated to them respectively. When the shares are retired, the capital stock account is reduced by its par value and the excess of cost over par value upon retirement is debited to additional paid-in capital to the extent of the specific or average additional paid-in capital when the shares were issued and to retained earnings for the remaining balance.

Retained earnings (deficit)

Retained earnings represent the cumulative balance of net income or loss, dividend distributions, prior period adjustments, effects of the changes in accounting policy and other capital adjustments.

Unappropriated retained earnings

Unappropriated retained earnings represent the portion of retained earnings that is free and can be declared as dividends to stockholders.

Appropriated retained earnings

Appropriated retained earnings represent the portion of retained earnings which has been restricted and therefore is not available for dividend declaration.

Equity reserve

Equity reserve represents:

- (a) a portion of equity against which the recognized liability for a written put option was charged;
- (b) gains or losses resulting from increase or decrease in ownership without loss of control; and
- (c) difference between the consideration transferred and the net assets acquired in common control business combination.

Revenue Recognition

Revenue from contracts with customers is measured based on the consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties. The Group has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

Revenue is recognized when the Group satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognized is the amount allocated to the satisfied performance obligation.

Service income

Service income consists of revenue from Value Added Services (VAS) and Business Process Outsourcing (BPO). BPO is further subdivided into IT Staffing, Custom Development and Managed Services, Products and Other Services.

VAS are mobile and content application services provided to mobile subscribers. Revenue is recognized at a point in time, that is when services are delivered to the customers during the period.

IT staffing is a business segment where the Group deploys resources to clients to fulfill their IT requirements. Revenue is recognized at a point in time, that is when services are rendered to the customers during the period.

Custom Development and Managed Services are services offered to customers that are produced in the Company's premises. Revenue is recognized over time and at a point in time. In measuring the progress of its performance obligation over time for Custom Development, the Group uses the output method which measures progress based on the completion of proportion of work done and requires technical determination by the IT specialists.

Products are readily available solutions that will cater to customers' requirements. Revenue is recognized at a point in time, that is when goods are delivered to the customers during the period.

Other Services are recognized over time, that is, when services are rendered to the customers or over the period to which the customers are entitled to avail of the services.

Sale of goods

Revenue from the sale of goods in the ordinary course of activities is measured at the fair value of the

consideration received or receivable, net of discounts and applicable taxes. Revenue is recognized at a point in time, which is normally upon delivery.

For the three-month periods ended March 31, 2026 and 2025, the Group has no variable consideration but the timing of revenue recognition resulted in contract assets and liabilities.

Contract Balances

Receivables

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional (e.g., warranty fees).

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer (e.g., upfront fees, implementation fees, subscription fees, etc.). If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Group performs under the contract.

Interest income

Interest income is recognized as it accrues using the effective interest method.

Other income

Other income is recognized as they accrue.

Cost and Expenses

"Cost of services", "Cost of goods sold", and "General and administrative expenses" are expenditures recognized in the consolidated statement of comprehensive income when decrease in future economic benefit related to a decrease in an asset or an increase in a liability has arisen that can be measure reliably. The following specific recognition criteria must also be met before costs and expenses are recognized:

Cost of services

Cost that includes all expenses associated with the specific sale of services. Cost of services include salaries, wages and employee benefits, utilities and communication, supplies and other expenses related to services. Such costs are recognized when the related sales have been recognized.

Cost of goods sold

Cost of goods sold consists of inventory costs related to goods which the Group has sold. Inventory costs include all costs of purchase and other costs incurred in bringing the inventories to their present location and condition.

General and administrative expenses

General and administrative expenses constitute expenses of administering the business and are recognized in profit or loss as incurred.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as lessee

Except for short-term leases and leases of low-value assets, the Group applies a single recognition and measurement approach for all leases. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received and estimate of cost to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

	Years
Office space	2 years

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in Impairment of nonfinancial assets section.

ii) Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

iii) Short-term leases

The Group applies the short-term lease recognition exemption to its short-term leases of office space (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases are recognized as expense on a straight-line basis over the lease term.

Income tax

Current tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the tax authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted as at the end of the reporting period.

Deferred tax

Deferred tax is provided using the liability method on all temporary differences, with certain exceptions, at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of taxable temporary differences associated with investment in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is

probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of unused tax credits from excess of minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and carryforward benefits of unused tax credits and NOLCO can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of taxable temporary differences associated with investment in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will not reverse in the foreseeable future taxable profit will be available against which the temporary differences can be utilized.

Deferred tax liabilities are not provided on nontaxable temporary differences associated with investments in domestic associates and interests in joint ventures.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient future taxable profit will be available to allow the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and deferred tax liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the financial reporting date. Movements in deferred tax assets and liabilities arising from changes in tax rates are charged or credited to income for the period.

Deferred tax relating to items outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognized subsequently if new information about facts and circumstances change. The adjustment is either treated as reduction in goodwill (as long as it does not exceed goodwill) if it was incurred during the measurement period or recognized in profit or loss.

Value-Added Tax (VAT)

Revenue, expenses and assets are recognized net of the amount of sales tax except:

- Where the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case the tax is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and,
- Receivables and payables that are stated with the amount of tax included.

The net amount of tax recoverable from, or payable to, the tax authority is included as part of other current assets or payables in the consolidated statement of financial position.

Pensions and other long-term employee benefits

The net pension liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any).

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method. Defined benefit costs comprise the following:

- Service cost
- Net interest on the net defined benefit liability or asset
- Remeasurements of net defined benefit liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset.

Net interest on the net defined benefit liability or asset is recognized as expense or income in profit or loss. Remeasurements comprising actuarial gains and losses are recognized immediately in the consolidated statements of financial position with a corresponding debit or credit through other comprehensive income in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

The Group's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

The Group also provided other long-term employee benefit obligations to an employee of a subsidiary as remuneration for the services provided by the employee to the subsidiary, which are to be settled in cash. A liability and expense for the long-term employee benefit is recognized when the services have been rendered and is amortized during the period of entitlement.

Foreign Currency Transactions

The Group's consolidated financial statements are presented in Philippine Peso, which is also the Parent Company and the subsidiaries' functional currency, except for AOC and ODX, which is US dollar, and Storm Indonesia, which is Indonesian Rupiah. The Philippine peso is the currency of the primary economic environment in which the Parent Company operates. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions denominated in foreign currencies are initially recorded in Philippine Peso at the exchange rate at the date of transaction. Foreign currency-denominated monetary assets and liabilities are retranslated at the closing rate at reporting date. Exchange gains or losses arising from foreign currency transactions are recognized in profit or loss.

As at reporting date, the assets and liabilities of subsidiaries whose functional currency is not the Philippines Peso are translated into the presentation currency of the Parent Company (the Philippine Peso) at the closing rate as at the reporting date, and the consolidated statement of income accounts are translated at monthly weighted average exchange rate. The exchange differences arising on the translation are taken directly to a separate component of equity under "Cumulative translation adjustment" account. Upon disposal of a foreign subsidiary, the deferred cumulative amount recognized in other comprehensive income relating to that particular foreign operation is recognized in profit or loss.

Investments in foreign associates are translated to Philippine Peso using the closing exchange rate prevailing at reporting date. The Group's share in the results of operations of the foreign investee is translated using the exchange rate at the dates of the transactions or, where practicable, the rate that approximates the exchange rates at the dates of the transactions, such as the average rate for the period. Any resulting exchange difference is recognized as a separate component of equity.

Earnings Per Share (EPS)

Basic EPS is computed by dividing net income for the year attributable to common stockholders of the parent by the weighted average number of common shares issued and outstanding during the year adjusted for any subsequent stock dividends declared. Diluted EPS is computed by dividing net income for the year attributable to common stockholders of the parent by the weighted average number of common shares issued and outstanding during the year after giving effect to assumed conversion of potential common shares, if any.

Segment Reporting

The Group's operating businesses are organized and managed separately according to the nature of the services provided, with each segment representing a strategic business unit that offers different services and serves different markets. Financial information on business segments is presented in Note 25 of the consolidated financial statements.

Provisions

Provisions are recognized when the entity has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

This policy also applies to proceeds received from the Token Pre-Sale Agreement for which management has assessed that it has a present constructive obligation to the token investors.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

Contingencies

Contingent liabilities are not recognized in the consolidated financial statements but are disclosed in the notes unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed in the notes when an inflow of economic benefits is probable.

This policy also applies to agreements which the Group entered into with certain advisors for which the services received are to be paid through internally generated tokens in the future and for which the obligation cannot be measured with sufficient reliability.

Events after the Reporting Period

Post year-end events up to date when the consolidated financial statements are authorized for issue that provide additional information about the Group's position at the reporting period (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

3. Significant Accounting Judgments and Estimates and Assumptions

The preparation of the accompanying consolidated financial statements in compliance with PFRS requires management to make judgments and estimates that affect the amounts reported in the consolidated financial statements and accompanying notes. The judgments and estimates used in the accompanying consolidated financial statements are based upon management's evaluation of relevant facts and circumstances as at the date of the consolidated financial statement. Future events may occur which will cause the judgments and assumptions used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the consolidated financial statements as they become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements.

a. Assumption of going concern

The management has made an assessment of the Group's ability to continue as a going concern and is satisfied that it can continue in business for the foreseeable future. The Group incurred net loss of P6.22 million for the three-month period ended March 31, 2026. As of March 31, 2026 the Group's current liabilities exceeded its current assets by P446.92 million. Management has considered this in their assessment and has concluded that the ability to continue as a going concern is mainly dependent on future

actions such as continuous venture into new revenue potentials, cost cutting measures, and equity funding to support liquidity.

Management does not have plans to liquidate and continues to believe that the Group is in a unique position being one of the few technology companies that can assist companies in their digital transformation initiatives and develop marketing promotions for consumer and enterprise businesses.

b. Determination of control over investment in subsidiaries

The Group determined that it has control over its subsidiaries by considering, among others, its power over the investee, exposure or rights to variable returns from its involvement with the investee, and the ability to use its power over the investee to affect its returns. The following were also considered:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual agreements
- The Group's voting rights and potential voting rights

c. Existence of significant influence over associates

The Group determined that it exercises significant influence over its associates (see Note 10) by considering, among others, its ownership interest (holding 20% or more of the voting power of the investee) and board representation.

d. Capitalization of development costs

The Group determined that intangible assets arising from development qualify for recognition by determining that all of the following are present:

- i. The technical feasibility of completing the intangible asset so that the asset will be available for use or sale;
- ii. Intention to complete and its ability and intention to use or sell the asset;
- iii. How the asset will generate future economic benefits;
- iv. The availability of resources to complete the asset; and
- v. The ability to measure reliably the expenditure during development.

e. Determination of constructive obligation arising from cryptocurrency transactions

The Group determined that a constructive obligation exists based on the terms of the agreements and the general expectations of the counterparties.

Management's Use of Estimates

The key assumptions concerning future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

a. Evaluating impairment of goodwill, and investments in associates

Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired. The cash flows are derived from the budget for the next five years which include factors considering the current economic environment but exclude restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the growth rates, EBITDA margin used for extrapolation purposes. These estimates are most relevant to goodwill recognized by the Group. The carrying values of goodwill amounted to ₱45.59 million as of March 31, 2026 and December 31, 2025, respectively (see Note 12).

Investments in associates are tested for impairment when circumstances indicate that the carrying value may be impaired. The carrying values of investments in associates amounted to nil as of March 31, 2026 and December 31, 2025, respectively.

b. Revenue recognition

The Group's revenue recognition require management to make use of estimates that may affect the reported amount of revenue. The Group's revenue from sale of services for development projects recognized based on the percentage of completion are measured principally on the basis of the estimated completion of the development services. In measuring the progress of its performance obligation over time, the Group uses the output method which measures progress based on the completion of proportion of work done and requires technical determination by the Group's specialists.

c. *Provisions and contingencies*

The Group is currently involved in assessments for national taxes. The estimate of the probable costs for the resolution of these assessments has been developed in consultation with outside counsel handling the defense in these matters and is based upon an analysis of potential results. The Group currently does not believe that these assessments will have a material effect on the Group's consolidated financial position and results of operation.

d. *Provision for expected credit losses of trade receivables and contract assets*

The Group uses a provision matrix to calculate ECLs for receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss pattern.

The provision matrix is initially based on the Group's historical observed default rates. The Group calibrates the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

As of March 31, 2026 and December 31, 2025, allowance for impairment losses on accounts and other receivables amounted to ₱20.64 million and ₱20.66 million, respectively (see Note 6).

e. *Realizability of deferred tax assets*

The Group reviews the carrying amounts of deferred income taxes at each reporting date and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. However, there is no assurance that the subsidiaries of the Group will generate sufficient taxable income to allow all or part of its deferred income tax assets to be utilized. The Group looks at its projected performance in the sufficiency of future taxable income.

4. Seasonality of Interim Operations

The Group is not subject to the seasonality of revenue realization.

5. Cash and cash equivalents

This account consists of:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Cash on hand	₱74,657	₱47,740
Cash in banks	52,793,703	32,104,366
	₱52,868,360	₱32,152,106

Cash in banks earn interest at the prevailing bank deposit rates.

Interest income earned from cash in banks amounted to ₱6,853 and ₱44 for the three-month periods ended March 31, 2025 and 2026, respectively.

6. Accounts and Other Receivables

This account consists of:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Trade receivables	₱39,581,651	₱35,698,357
Receivable from related parties (Note 20)	5,372,972	2,707,711
Advances to employees	311,299	360,012
Others	2,117,684	1,916,357
	47,383,606	40,682,437
Less: Allowance for impairment loss	20,640,028	20,657,252
	₱26,743,578	₱20,025,185

Trade receivables arise from the mobile content development, mobile solution and key platform development services rendered by the Group to its customers. These are noninterest-bearing and are generally settled on a 30- to 60-day term.

Advances to employees mainly pertain to advances which are subject to liquidation.

Others are noninterest-bearing and are generally collectible within one year.

The table below shows the movements in the provision for impairment losses of trade receivables:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
At beginning of year	₱20,657,252	₱31,751,317
Provisions	—	15,130,731
Write-off	—	(27,041,976)
Translation adjustments	(17,224)	817,180
	₱20,640,028	₱20,657,252

As of March 31, 2026 and December 31, 2025, the allowance for impairment losses pertains to:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Trade receivables	₱17,550,664	₱17,567,888
Receivable from related parties (Note 20)	1,830,166	1,830,166
Others	1,259,198	1,259,198
	₱20,640,028	₱20,657,252

7. Contract Balances

This account consists of:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Contract assets	₱40,015,914	₱37,452,791
Contract liabilities	49,542,171	30,365,964

Contract assets are initially recognized for revenues earned from custom development as receipt of consideration is conditional on successful completion of proportion of work. Upon completion of performance obligation and acceptance by the customer, the amount recognized as contract assets are reclassified to trade receivables.

Contract liabilities consist of collections from customers under custom development services which have not qualified for revenue recognition.

8. Financial Assets at Fair Value through Other Comprehensive Income

This account consists of:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
<i>Financial assets at FVOCI</i>		
Quoted shares		
Club Punta Fuego	₱1,100,000	₱1,100,000
	₱1,100,000	₱1,100,000

The rollforward analysis of financial assets at FVOCI follow:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Balance at beginning of period	₱1,100,000	₱1,100,000
Unrealized gain (loss) on financial assets at FVOCI, net of tax	—	—
	₱1,100,000	₱1,100,000

The roll forward analysis of net unrealized loss on financial assets at FVOCI follows:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Balance at beginning of period	(₱43,594,956)	(₱43,594,956)
Unrealized gain on financial assets at FVOCI	—	—
Balance at end of period	(₱43,594,956)	(₱43,594,956)

Unrealized loss on financial assets at FVOCI is recognized under “Other comprehensive income” in the consolidated statements of comprehensive income.

The quoted shares are categorized under the Level 2 of the fair value hierarchy. The unquoted equity investments are categorized under Level 3 (see Note 24).

Quoted equity investments

Quoted equity instruments consist of investment in golf club shares.

Unquoted equity investments

In April 2015, the Group acquired 666,666 million shares of Series A Preferred Stock of Zowdow Inc. (“Zowdow”), formerly Quick.ly, Inc. (“Quick.ly”), at a purchase price of \$1.50 per share for a total investment of US\$999,999 or ₱44.24 million. As at March 31, 2026 and December 31, 2025, the Group holds a 3.56% ownership of Zowdow on a fully-diluted basis.

Fair value of unquoted equity investments was determined using prices from recent sales at arm’s length transaction. No unrealized gain or loss was recognized during the year for these investments (Note 24).

Unquoted debt investments

The Group has convertible promissory notes and bonds receivable as of March 31, 2026 and December 31, 2025:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Unquoted debt investments		
MatchMe Pte. Ltd.	₱52,495,000	₱52,495,000
Einsights Pte. Ltd.	23,475,000	23,475,000
Pico Candy Pte. Ltd.	3,602,123	3,602,123
	79,572,123	79,572,123
Less: remeasurement loss	(79,572,123)	(79,572,123)
Balance at end of year	₱–	₱–

9. Other Assets

Other current assets

This account consists of:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Input VAT – net	₱15,978,666	₱16,105,311
Prepaid expenses	9,903,904	9,755,564
Creditable withholding tax	2,223,020	2,223,020
Rental deposit	–	396,002
	28,105,590	28,479,897
Less: allowance for impairment losses	3,377,346	3,377,346
	₱24,728,244	₱25,102,551

Prepaid expenses mainly pertain to advances to suppliers, advance rent and prepaid professional fees.

Deferred input VAT represents input VAT related to unpaid balances for the services availed by the Group. These will be recognized as input VAT and applied against output VAT upon payment. Any remaining balance is recoverable in future periods.

Refundable deposits pertain to security deposit made for performance bond and rent which will be received within one year.

Input VAT represents VAT imposed on the Company by its suppliers for the acquisition of goods and services.

Other noncurrent assets

This account consists of:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Creditable withholding tax	₱34,754,772	₱33,957,925
Deferred input VAT	23,438,435	22,970,328
Rental deposit	35,337	295,784
Others	422,769	422,769
	58,651,313	57,646,806
Less: allowance for impairment losses	21,724,887	21,724,887
	₱36,926,426	₱35,921,919

10. Investments in and Advances to Associates and Noncurrent Assets Held for Sale

This account consists of:

	December 31, 2025 (Audited)
Cost	
Balance at beginning and end of period	₱577,561,081
Equity in net loss	
Balance at beginning of period	(188,501,137)
Share in net earnings (losses) during the period	(5,221,424)

	₱—

The equity in cumulative translation adjustments represents exchange differences arising from the translation of financial statements of the foreign operations, whose functional currency is other than Philippine Peso.

The Group's equity in the net assets of associates is nil as of March 31, 2026 and December 31, 2025. The related percentages of ownership are shown below:

	Percentages of Ownership	
	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Micro Benefits Limited	23.53	23.53
MatchMe Ltd.	29.10	29.10
Altitude Games Inc.	21.17	21.17

Micro Benefits Limited

On March 9, 2016, the Parent Company acquired 718,333 new Series C Preferred Shares equivalent to a 23.53% stake in Micro Benefits Limited ("Micro Benefits") for US\$10.00 million. Micro Benefits, a company registered in Hong Kong, is engaged in the business of providing employee benefits to Chinese workers through its operating company, Micro Benefits Financial Consulting (Suzhou) Co. Ltd., located in China.

PT Sembilan Digital Investama

On March 26, 2015, the Parent Company acquired 147 shares representing 49% shareholdings in PT Sembilan Digital Investama (SDI) amounting to ₱10.83 million. The acquisition gave the Parent Company access to PT Ninelives Interactive ("Ninelives"), a mobile content and distribution company in Indonesia, which SDI owns.

In December 2025, the Board approved the sale of investment in and advances to SDI. As of December 31, 2025, the investment in and advances to PT Sembilan Digital Investama (or the disposal group) is reclassified as non-current assets held for sale amounting to ₱16.84 million, net of ₱22.50 million impairment loss. The Group sold the disposal group in March 2026 for Rp5,000 million (approximately ₱16.84 million).

SDI's registered office address is at Jl. Pos Pengumben Raya No. 01 RT 010 RW 03, Kel Srengseng, Jakarta Barat.

MatchMe Pte. Ltd.

In 2015 and 2018, the Group acquired an aggregate of 1,547,729 ordinary shares or 29.10% interest in MatchMe, an international game development company based in Singapore, for a total consideration amounting to ₱63.58 million.

In 2019, MatchMe became dormant which prompted full impairment of the Group's investment in MatchMe amounting to ₱38.66 million.

MatchMe's registered office address is at 100 Cecil Street #10-01/002 the Globe, Singapore.

Altitude Games Inc.

On July 22, 2015, the Parent Company subscribed to 211,656 shares of stock or 21.17% shareholdings in Altitude Games Inc. ("Altitude Philippines"), an affiliate of Altitude Games. Altitude Philippines engages in the business of development, design, sale and distribution of games and applications.

Altitude Philippine's registered office address is at Unit A51 5th Floor Zeta II Bldg., Salcedo St. Legazpi Village, Makati City.

As at March 31, 2026 and December 31, 2025, there are no capital commitments relating to the Group's interests in its associates.

The Group considers an associate with material interest if its net assets exceed 5% of its total consolidated net assets of the Group as of reporting period and considers the relevance of the nature of activities of the entity compared to other operations of the Group. There are no significant restrictions on the Parent Company's ability to use assets and settle liabilities of the Group.

11. Property and Equipment

The Group acquired property and equipment amounting to ₱0.18 million and nil during the three-month periods ended March 31, 2026 and 2025, respectively. Depreciation expense amounted to ₱0.30 million and ₱0.42 million for the three-month periods ended March 31, 2026 and 2025, respectively.

Goodwill

Goodwill pertains to excess of the acquisition cost over the fair value of the identifiable assets and liabilities of companies acquired by the Group.

Developed software

Developed software pertain to telecommunications equipment software licenses, corporate application software and licenses and other VAS software applications that are not integral to the hardware or equipment.

Leasehold rights

Leasehold rights pertain to cost savings arising from lower than market rate rental in the lease contracts acquired through business combination.

Cryptocurrencies

Cryptocurrencies pertain to units of Bitcoin, Ether, USDT and USDC held by the Group. The Group disposed of all its cryptocurrency holdings in 2025.

The amortization expense of intangible assets recognized in “Depreciation and amortization” under “Cost of services” in the consolidated statements of comprehensive income amounted to ₱0.07 million and ₱0.15 million for the three-month periods ended March 31, 2026 and 2025, respectively (see Note 16).

13. Accounts and Other Payables

This account consists of:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Payable to third parties	₱88,327,722	₱88,325,999
Accrued expenses	73,142,034	63,594,041
Nontrade payable	71,062,394	69,205,964
Taxes payable	46,517,406	45,104,221
Payable to related parties (Note 20)	13,345,164	16,069,027
Trade payables	6,041,945	13,006,506
Others	165,950,477	161,023,474
	₱464,387,142	₱456,329,232

Payable to third parties are advances made by minority shareholders and affiliates of Seer and Storm for working capital purposes and deposits for future stock subscription. These are noninterest-bearing and are settled within one year.

Accrued expenses mainly consist of accruals for interest expense, commission, outsourced services, taxes and licenses, professional fees and others. These are noninterest-bearing and are normally settled within one year.

Nontrade payables include proceeds received by ODX under the Share and Token Allocation Agreement which grants the investor rights to certain shares of ODX and internally generated tokens in the future depending on the happening of certain events prior to termination of the agreement.

Taxes payable include output VAT after application of available input VAT and expanded withholding tax on payment of suppliers and employees' compensation which are settled within one year.

Trade payables represents the unpaid subcontracted services and other cost of services to third parties. These are noninterest-bearing and are normally settled within one year.

Others consist of statutory payables to SSS, Philhealth and HDMF. This account also includes provision relating to the Token Pre-Sale Agreements ("PSA") entered into by the Group, through ODX, with various investors for the sale of ODX tokens. These are noninterest-bearing and are normally settled within one year.

The table below shows the movements in the provision relating to the PSA:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Balance at beginning of year	₱160,404,245	₱157,785,623
Translation adjustments	5,278,160	2,618,622
	₱165,682,405	₱160,404,245

14. Loans Payable

This account pertains to short-term, unsecured and interest bearing 30- to 1,050- day term loans entered into by the Group with different local banks and non-banks.

The rollforward analysis of this account follow:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Balance at beginning of period	₱26,183,594	₱38,775,697
Additions	46,000	184,000
Reversal	—	(12,696,000)
Payment of loans	—	(80,103)
Balance at end of year	₱26,229,594	₱26,183,594

Interest expense recognized in the consolidated statements of comprehensive income during the three-month periods ended March 31, 2026 and 2025 amounted to ₱0.39 million and ₱0.41 million, respectively (see Note 18).

15. Service Income

Service income, amounting to ₱48.99 million and ₱42.07 million for the three-month periods ended March 31, 2026 and 2025, respectively, pertain to revenues earned from mobile consumer products and services, enterprise services and other services rendered by the Group to its customers. Revenues from these segments are recognized at a point in time, except for revenues from custom development included under enterprise services which are recognized over time.

Revenue from contracts with customers

The Group derives revenue from the transfer of goods and services over time and at a point in time, in different product types of its service income. The Group's disaggregation of revenue from contracts with customers for the three-month periods ended March 31, 2026 and 2025 are presented below:

	March 31	
	2026	2025
	(Unaudited)	(Unaudited)
Mobile consumer services	₱30,513	₱—
Enterprise services	25,865,862	28,428,323
Other services	23,095,635	13,966,727
	₱48,992,010	₱42,395,050

16. Cost of Services

Cost of services for the three-month periods ended March 31, 2026 and 2025 consists of:

	March 31	
	2026	2025
	(Unaudited)	(Unaudited)
Outside services	₱15,246,995	₱9,774,869

	1,225,023	942,326
	₱1,036,556	₱1,319,253

The rollforward analysis of lease liability as of March 31, 2026 and December 31, 2025 follows:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Balance at beginning of period	₱1,383,754	₱187,245
Addition	—	2,261,579
Accretion of interest	21,826	108,677

Payments	(300,714)	(1,173,749)
Balance at end of period	₱1,104,866	₱1,383,752
Current lease liabilities	₱1,104,866	₱1,177,533
Noncurrent lease liabilities	₱—	₱206,219

Total rent expense charged under “Cost of services” and “General and administrative expenses” in the consolidated statements of comprehensive income amounted to ₱60,200 and ₱170 for the three-month periods ended March 31, 2026 and 2025, respectively (see Notes 16 and 17).

20. Related Party Transactions

The Group, in the normal course of business, has transactions with related parties. Parties are considered to be related if, among others, one party has the ability, directly or indirectly, to control the other party in making financial and operating decisions, the parties are subject to common control or the party is an associate or a joint venture.

Terms and conditions of transactions with related parties

There have been no guarantees provided or received for any related party receivables and payables. These accounts are noninterest-bearing and are generally unsecured. Except as otherwise indicated, the outstanding accounts with related parties shall be settled in cash. The transactions are made at terms and prices agreed upon by the parties. Impairment assessment is undertaken through examination of the financial position of the related party and market in which this related party operates.

Details of transactions with related parties and their outstanding payables to a related party as at March 31, 2026 and December 31, 2025 follow:

			Amount/ Volume		Outstanding Balance			
			March 31, 2026	March 31, 2025	March 31, 2025		December 31, 2025

Associates:

- a. Advances to an associate pertain to payments made by the Parent Company on behalf of SDI for its outsourced services.

Stockholders:

- a. In 2017, the Parent Company entered into a loan agreement with a director amounting to US\$648,586 subject to 5% interest rate per annum. The loan is due and demandable.

For the three-month periods ended March 31, 2026 and 2025, the Group recognized interest expense amounting to ₱0.47 million and ₱0.46 million, respectively, under “Finance Cost and Other income (charges)” in its consolidated statements of comprehensive income (see Note 18). As at March 31, 2026 and December 31, 2025, outstanding loans and interest payable amounted to ₱37.22 million and ₱10.85 million, respectively, and ₱39.28 million and ₱12.76 million, respectively.

- b. In 2025, a director and officer made cash advances for operational and corporate-related expenses of the Group. This is interest-bearing and are due and demandable. As of March 31, 2026 and December 31, 2025, the outstanding payable amounted to nil and ₱2.00 million, respectively. Interest expense recognized amounted to ₱28,130 for the three-month period ended March 31, 2026.
- c. Payable to directors and officers also pertain to directors’ fees. Outstanding payable amounted to ₱0.41 and ₱1.13 million as at March 31, 2025 and December 31, 2024, respectively.
- d. Advances from stockholders pertain to cash advances for operational and corporate-related expenses paid by a stockholder in behalf of the Group. These are noninterest-bearing and are due and demandable. Outstanding payable as at March 31, 2025 and December 31, 2024 amounted to ₱5.62 million.

Affiliate:

- a. The Parent Company entered into an agreement with CTX wherein the Parent Company agreed to perform financial, legal, human resources, sales and marketing support, administrative support and technical services for a fee. As at March 31, 2026 and December 31, 2025, outstanding receivable amounted to nil.
- b. The Group entered into service agreement with CTX to provide staff augmentation services. The Group’s revenue from these services for the three-month period ended March 31, 2026 and 2025 amounted to ₱5.51 million and ₱3.86 million, respectively. Outstanding receivable as of March 31, 2026 and December 31, 2025 amounted to ₱5.37 million and ₱2.17 million, respectively.
- c. Advances from affiliate pertain to payments made by CTX to the Parent Company for operational purposes subject to future liquidation. Outstanding payable as at March 31, 2026 and December 31, 2025 amounted to ₱0.17 million and ₱3.77 million, respectively.

Compensation of key management personnel pertaining to short-term employee benefits amounted to ₱4.37 million and ₱4.64 million for the three-month periods ended March 31, 2026 and 2025, respectively.

21. Income Taxes

Provision for (benefit from) income tax for the three-month periods ended March 31, 2026 and 2025 consists of:

	March 31	
	2026 (Unaudited)	2025 (Unaudited)
Current	₱673,915	₱296,994
Deferred	—	—
Final	47	9
	₱673,962	₱297,003

22. Equity

The details of the number of shares as at March 31, 2026 and December 31, 2025 follow:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Authorized shares	5,000,000,000	5,000,000,000
Par value per share	₱0.10	₱0.10
Issued shares	2,571,812,787	2,571,812,787
Treasury shares	58,208,975	58,208,975
Outstanding shares	2,513,603,812	2,513,603,812
Value of shares issued	₱257,181,278	₱257,181,278
Value of treasury shares	(₱66,885,113)	(₱66,885,113)

Capital Stock and Additional Paid-in Capital (APIC)

The balance of additional paid-in capital (APIC) as of March 31, 2026 and December 31, 2025 represents the excess of the subscription price over paid-up capital.

On March 2, 2018, the Parent Company issued 67,285,706 common shares by way of block sale to implement the amendments in a share purchase agreement related to acquisition of AOC. The shares were issued at ₱3.80 per share.

In 2020 and 2019, APIC reduced as a result of reissuance of treasury shares by the amount of ₱7.19 million and ₱6.98 million, respectively.

On January 20, 2022, the Parent Company's BOD approved the issuance of common shares to Mr. Nico Jose S. Nollodo, a founder and currently the Chairman of the board, in exchange of ₱100.00 million capital infusion. Total number of shares issued is at 181,818,182 for ₱0.55 per share. The transaction was executed on March 21, 2022.

On June 30, 2023, the Parent Company's BOD approved the conversion of the advances to equity made by Mr. Fernando Jude F. Garcia and Mr. Nico Jose S. Nollodo ("Assignors") with an aggregate amount of ₱136,520,626. The conversion price was set at ₱0.30 per share. On November 13, 2023, a total of 455,068,753 common shares were issued to the Assignors.

Retained Earnings

Appropriations

Appropriated retained earnings which relates to buyback program of common shares in 2016 amounted to ₱115.46 million as of March 31, 2026 and December 31, 2025. On July 13, 2026, the Group reversed its appropriated retained earnings amounting to ₱115.46 million. This is considered a non-adjusting subsequent event.

Dividends declaration

The Parent Company has no dividend declarations made in the three-month periods ended March 31, 2026 and 2025.

Equity Reserve

In 2016, the Parent Company purchased additional shares from noncontrolling interests of Xeleb, Xeleb Technologies and Storm. The transactions were accounted as an equity transaction since there was no change in control. Equity reserve recognized as a result of these transactions amounted to ₱43.72 million.

In 2017, a reserve amounting to ₱358.50 million was recognized for the payment resulting from amendments in the purchase price and the acquisition of the Parent Company's own shares related to the acquisition of AOC.

In 2019, the Parent Company purchased the remaining 33% stake from noncontrolling interests of Xeleb Technologies. The transaction was accounted as an equity transaction since there was no change in control resulting to a reduction in equity reserve amounting to ₱36.09 million.

In 2019, a reduction in equity reserve amounting to ₱2.71 million was recognized due to the increase in noncontrolling interests of Storm Technologies from 43.40% to 48.69%.

Treasury Stock

As of March 31, 2026 and December 31, 2025, the Parent Company has 58,208,975 treasury shares amounting to ₱66.89 million.

Employee Stock Option Plan

The Parent Company's BOD, on January 20, 2016, and the stockholders, on May 11, 2016, approved the Employee Stock Option Plan (the Plan) of the Parent Company. Full time and regular employees of the Parent Company and those deemed qualified by the Compensation and Remuneration Committee from the names recommended by the Executive Committee are eligible to participate in the Plan. As at March 31, 2026, the Plan has been on hold for approval of the SEC and PSE.

Capital Management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders or issue new shares.

The Group's sources of capital follow:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Capital stock	₱257,181,278	₱257,181,278
Additional paid-in capital	3,716,002,747	3,716,002,747
Deficit	(3,711,952,618)	(3,704,885,992)
	₱261,231,407	₱268,298,033

The Group is not subject to externally-imposed capital requirements. The Group regards its equity as its primary source of capital. No changes were made in the capital management policies as at March 31, 2026 and December 31, 2025.

23. Loss Per Share

The Group's loss per share for the three-month periods ended March 31, 2026 and 2025 were computed as follows:

	March 31	
	2026 (Unaudited)	2025 (Unaudited)
Net loss attributable to the equity holders of the Parent Company	(₱7,066,626)	(₱10,081,719)
Weighted average number of outstanding shares	2,513,603,812	2,509,683,812
Basic loss per share	(₱0.00)	(₱0.00)
Diluted loss per share	(₱0.00)	(₱0.00)

Loss per share is calculated using the consolidated net loss attributable to the equity holders of the Parent Company divided by weighted average number of shares. As of March 31, 2026, there's no potentially dilutive common shares.

24. Financial Instruments

Fair Value Information

The methods and assumptions used by the Group in estimating fair value of the financial instruments are as follows:

- Cash, accounts and other receivables (except for advances to employees which are subject to liquidation), refundable deposits under other current assets, cash bond under other noncurrent assets, accounts and other payables (excluding “Taxes payable”, “Deferred output VAT”, and provision relating to PSA and statutory payables included as “Others”), loans payable, liability on written put option, payable to former shareholders of a subsidiary, dividends payable and finance lease liability under other current liabilities - Carrying amounts approximate fair values due to the relatively short-term maturities of these instruments, except for cash bond under other noncurrent assets. The difference between carrying amount and fair value is immaterial.
- Financial assets at FVOCI - Fair value is based on quoted prices published in the market.
- Financial assets at FVOCI (unquoted equity investments) - Fair values are based on the latest selling price available
- Financial assets at FVPL (unquoted debt investments) - Fair values are based on the comparable prices adjusted for specific market factors such as nature, industry, location and market recovery rates.
- Nontrade payable - Fair values are determined using prices in such transaction which still approximate the fair values at yearend.

The fair value of financial assets at FVOCI amounting to ₱1.10 million approximate their carrying value.

Fair Value Hierarchy

The Group uses the following three-level hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Cash, accounts and other receivables, refundable deposits under other current assets, cash bond under other noncurrent assets, accounts and other payables (excluding “Taxes payable”, “Deferred output VAT”, and statutory payables included as “Others”), loans payable, liability on written put option, payable to former shareholders of a subsidiary, dividends payable and finance lease liability under other current liabilities were classified under Level 3. The fair value of these financial instruments is determined by discounting future cash flows using the applicable rates of similar types of instruments plus certain spread.

Quoted financial assets at FVOCI amounting to ₱1.10 million as at March 31, 2026 and December 31, 2025 were classified under Level 2 (see Note 8).

Unquoted financial assets at FVOCI amounting to nil as at March 31, 2026 and December 31, 2025 were classified under Level 3 (see Note 8).

As at March 31, 2026 and December 31, 2025, there have been no reclassifications from Level 1 to Level 2 or 3 categories.

Financial Risk Management and Objectives and Policies

The Group’s financial instruments comprise cash, financial assets at FVPL, accounts and other receivables, financial assets at FVOCI, refundable deposits under other current assets, cash bond under other noncurrent assets, accounts and other payables (excluding taxes payable, deferred output VAT, customer’s deposit and statutory payables), loans payable, liability on written put option, contingent liability and finance lease liability under other current liabilities, which arise directly from operations. The main purpose of these financial instruments is to finance the Group’s operations and to earn additional income on excess funds.

Exposure to credit risk, liquidity risk and foreign currency risk arise in the normal course of the Group's business activities. The main objectives of the Group's financial risk management are as follows:

- to identify and monitor such risks on an ongoing basis;
- to minimize and mitigate such risks; and
- to provide a degree of certainty about costs.

There were no changes in the Group's risk management objectives and policies during the three-month periods ended March 31, 2026 and 2025.

The Group's risk management policies are summarized below:

Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss for the Group by failing to discharge an obligation.

The Group's credit risk is primarily attributable to cash (excluding "cash on hand") and receivables. To manage credit risk, the Group monitors its exposure to credit risk on a continuous basis.

The Group's maximum exposure to credit risk is equal to the carrying values of its financial assets as at March 31, 2026 and December 31, 2025.

The credit quality of the financial assets was determined as follows:

Cash in banks, financial assets at FVPL, financial assets at FVOCI and other assets - based on the nature of the counterparty and the Group's rating procedure. These are held by counterparty banks with minimal risk of bankruptcy and are therefore classified as high grade.

Accounts and other receivables - high grade pertains to receivables with no default in payment; medium grade pertains to receivables with up to three defaults in payment; and low grade pertains to receivables with more than three defaults in payment.

Unquoted AFS financial assets are unrated.

Liquidity Risk

Liquidity risk is the risk that the Group will be unable to meet its obligations as they fall due. The Group seeks to manage its liquidity risk to be able to meet its operating cash flow requirement, finance capital expenditures and service maturing debts. To cover its short-term and long-term funding requirements, the Group intends to use internally generated funds and available short-term and long-term credit facilities. Credit lines are obtained from BOD-designated banks at amounts based on financial forecast approved by the BOD.

The maturity profile of the Group's financial assets and financial liabilities at March 31, 2026 and December 31, 2025 are based on contractual undiscounted payments.

As at March 31, 2026 and December 31, 2025, except for its loans payable, the Group's financial assets and financial liabilities have a maturity of less than one year.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's loans payable with variable interest rates.

Foreign Currency Risk

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The following table shows the foreign currency-denominated monetary assets and their respective Philippine peso equivalent as of March 31, 2026 and December 31, 2025.

	March 31, 2026		December 31, 2025	
	Original currency	Peso equivalent	Original currency	Peso equivalent
Cash in bank				
US Dollar (USD)	\$83,599	₱5,077,817	\$10,771	₱633,402
Trade receivables				
US Dollar (USD)	—	—	—	—
Foreign currency denominated assets		₱5,077,817		633,402

In translating the foreign currency-denominated monetary assets into Peso amounts, the exchange rates used were as follows:

	March 31, 2026	December 31, 2025
USD to ₱	₱60.74	₱58.81

25. Segment Reporting

The industry segments where the Group operates follow:

- Mobile consumer services - includes airtime management, content development and management and marketing and advertising solutions
- Enterprise services - includes platform development and customization, system integration, mobile platform consultancy services, management of off-the-shelf application and social media related services. This also includes IT staff augmentation and various enterprise solutions-based services to telecommunication companies and other companies for network and applications development
- Other services – includes consultancy services in the field of human resource management, trading in general, sourcing for and supplying of goods to import and export goods

The following tables regarding business segment revenue and profit information for the three-month periods ended March 31, 2026 and 2025:

March 31, 2026 (Unaudited)

	Mobile consumer services	Enterprise Service	Other services	Intersegment Adjustments	Consolidated

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

Xurpas continues to demonstrate improving operational fundamentals through disciplined cost management and revenue acceleration. Sustained focus on profitability and capital structure will be key to restoring equity value and sustaining its growth momentum.

The company continues to invest in the development of AI-infused products that address critical gaps in the enterprise resource planning (ERP) market. These innovative solutions will integrate machine learning and intelligent automation features into core business management systems, offering SMEs and large enterprises alike smarter, more adaptive tools to streamline operations and support growth.

Xurpas remains committed to advancing operational efficiency through continuous improvement and the streamlining of processes across its business units. By strategically deploying resources and fostering innovation, the Company reinforces its core competencies, supports the expansion of emerging segments, and upholds its commitment to delivering consistent value to stakeholders.

For the three months ended March 31, 2026, the Company continued to build on the positive revenue momentum achieved in 2025. Despite still operating at a net loss, the Company delivered revenue expansion and operational improvements in most of its business segments.

In the first quarter of 2026, Xurpas posted a 16% revenue growth to ₱48.99 million, from ₱42.40 million the same period of 2025, driven by robust performance in Other Services, compensating for the decrease in the enterprise services. Allcare, under other services, achieved a 65% increase in revenues from ₱13.97 million in 1Q2025 to ₱23.10 million in 1Q2026, reflecting its expanding subscriber base. This offset the decrease in enterprise services revenues by 9%, from ₱28.43 million in 1Q2025 to ₱25.87 million in 1Q2026. Although, there was expansion in the staff augmentation and AI business segments, this was negated by the slowdown in custom software development and business solutions.

Cost of services increased by 18%, from ₱27.19 million in 1Q2025 to ₱32.20 million in 1Q2026, in line with higher benefits costs from Allcare's HMO operations (growing at 56%), reflecting the growing number of enrolled members. Over the same period, gross profit improved by 10% to ₱16.79 million, compared to ₱15.20 million in the prior year. General and administrative expenses decreased by 29% to ₱18.78 million in 1Q2026, from ₱26.52 million in the same period of 2025, mainly due to continuous manpower right-sizing, done until 1Q2026. .

Due to the sale of its stake in an affiliate and the full impairment of the other, Xurpas has nil equity pick up from the associates in 1Q2026. By the end of 1Q2026, pre-tax and net losses narrowed significantly to ₱5.55 million and ₱6.22 million, respectively, from ₱9.13 million and ₱9.43 million last year. The Company, however, incurred other comprehensive loss primarily due to the cumulative translation adjustment related to the consolidation of its foreign subsidiaries. Other comprehensive loss totaled ₱6.73 million, compared to last year's ₱0.36 million loss. Total comprehensive loss deteriorated by 32% year-over-year to ₱12.95 million.

	Mar. 31, 2026 Amount	Dec. 31, 2025 Amount	Amount Change	% Increase (Decrease)
Total Assets	230.04	216.73	13.31	6%
Total Liabilities	605.64	579.38	26.26	5%
Total Capital Deficiency	(375.60)	(362.66)	12.95	4%

The Group generated total revenues of ₱48.99 million for the three-month period ended March 31, 2026, an increase of ₱6.60 million or 16% from ₱42.40 million in the same period of 2025. The increase was primarily driven by the Other Services segment, which grew by ₱9.13 million or 65%, contributing 47% of total revenues compared to 33% in the prior year's first quarter. Meanwhile, Enterprise Services remained the Group's largest revenue source at ₱25.87 million, accounting for 53% of total revenues, although revenues from the segment declined by ₱2.56 million or 9% year-on-year. The Group also recognized ₱0.03 million in revenues from Mobile Consumer Services, compared to no revenues in the same period last year.

Cost of services increased by ₱5.01 million or 18%, from ₱27.19 million in the first quarter of 2025 to ₱32.20 million in the same period of 2026. Consequently, gross profit improved by ₱1.59 million or 10% to ₱16.79 million. However, gross profit margin slightly declined to 34% from 36% in the prior year, reflecting the relatively higher direct costs incurred during the period.

General and administrative expenses declined significantly by ₱7.55 million or 28%, from ₱26.52 million in 1Q2025 to ₱18.97 million in 1Q2026, as the Group continued to implement cost optimization measures. In addition, the Group no longer recognized equity in net losses of associates following the full impairment of its investment in MicroBenefits in 2025 and the sale of its investment in PT Sembilan Digital Investama (Ninelives).

Finance costs increased by 12% to ₱0.99 million in 1Q2026. The Group also recognized net other charges of ₱2.38 million in 1Q2026, compared to net other income of ₱1.61 million in the same period last year, representing a variance of ₱3.98 million.

As a result of the foregoing, the Group's loss before income tax improved by ₱3.58 million or 39%, decreasing from ₱9.13 million in the first quarter of 2025 to ₱5.55 million in the same period of 2026. Net loss likewise improved by ₱3.21 million or 34%, from ₱9.43 million to ₱6.22 million.

Despite the improved operating performance, the Group recognized other comprehensive loss of ₱6.73 million, compared to ₱0.36 million in the prior year, primarily due to unfavorable movements in foreign exchange for cumulative translation adjustment. Consequently, total comprehensive loss increased by ₱3.16 million or 32%, from ₱9.79 million in the first quarter of 2025 to ₱12.95 million in the current period.

As of March 31, 2026, consolidated total assets stood at ₱230.04 million, an increase of ₱13.31 million or 6% from ₱216.73 million as of December 31, 2025. Consolidated total liabilities likewise increased by ₱26.26 million or 5% to ₱605.64 million, from ₱579.38 million at year-end 2025.

As a result, the Group's capital deficiency widened to ₱375.60 million as of March 31, 2026, from ₱362.66 million as of December 31, 2025, representing an increase of ₱12.95 million or 4%, primarily due to the comprehensive loss recognized during the period.

Profitability

For the three-month period ended March 31, 2026, compared with the three-month period ended March 31, 2025.

Revenues

The consolidated revenues of the Group for the 1Q2026 amounted to ₱48.99 million, an increase of 16% from ₱42.40 million the same period of the previous year.

Segment	Description	Subsidiaries
Enterprise services	Revenues derived from a combination of software development, information technology (IT) staff augmentation, business solutions, and AI consultancy services.	• Xurpas Enterprise • Xurpas Parent Company • Xurpas Software • Seer • XAU
Other services	Revenues derived from services related to a membership-based marketplace which offers a variety of worker benefits –insurance, health checks and wellness.	• AllCare
Mobile consumer services	Revenues ultimately derived from providing mobile consumer engagement solutions, leveraging SMS blasts to deliver targeted incentives or information directly to users' devices.	• Xurpas Parent Company • Xurpas Software

In PhP Millions	For the three-month periods ended March 31					
	2026		2025		Amount Change	% Increase (Decrease)
	Amount	Percentage	Amount	Percentage		
Revenues						
Enterprise services	25.87	53%	28.43	67%	(2.56)	(9%)
Mobile consumer services	0.03	0%	-	0%	0.03	0%
Other services	23.10	47%	13.97	33%	9.13	65%
Total Revenues	48.99	100%	42.40	100%	6.60	16%

For the three-month period ended March 31, 2026, the Company recorded total revenues of ₱48.99 million, representing an increase of ₱6.60 million, or 16%, from ₱42.40 million in the same period of 2025. The increase was primarily driven by the strong performance of the Other Services segment, which generated ₱23.10 million, accounting for 47% of total revenues, and grew by 65% from ₱13.97 million in the prior year's comparable period. The growth was mainly attributable to higher revenues recognized by AllCare, the Company's subsidiary that provides services related to a membership-based marketplace offering worker benefits, including insurance, health screening, and wellness programs.

Enterprise Services remained the Company's largest revenue contributor, generating ₱25.87 million, or 53% of total revenues. However, revenues from the segment declined by 9% from ₱28.43 million in the first quarter of 2025, primarily due to lower revenues from the software development business.

Meanwhile, Mobile Consumer Services generated only ₱0.03 million in revenues during the first quarter of 2026, compared to no revenues in the same period last year, maintaining the segment as an opportunistic business.

Shown below are the business units under enterprise services segment and their respective revenues:

In PhP Millions	For the three-month periods ended March 31					
	2026		2025		Amount Change	% Increase (Decrease)
	Amount	Percentage	Amount	Percentage		
Enterprise Services						
IT staff augmentation	11.69	45%	8.89	31%	2.80	32%
Custom software development	10.17	39%	14.69	52%	(4.53)	(31%)
Business solutions	2.88	11%	3.55	13%	(0.67)	(19%)
XAIL	1.13	4%	0.96	3%	0.16	17%
Others	-	0%	0.33	1%	(0.33)	(100%)
<i>Total Enterprise Services</i>	25.87	100%	28.43	100%	(2.56)	(9%)

For the three months ended March 31, 2026, Enterprise Services generated revenues of ₱25.87 million, representing 53% of the Company's total revenues. Compared to revenues of ₱28.43 million in the same period in 2025, the segment recorded a 9% decline.

IT Staff Augmentation was the largest contributor within the segment, generating revenues of ₱11.69 million, or 45% of Enterprise Services revenues, representing an increase of 32% from ₱8.89 million in the prior-year period. Custom Software Development generated revenues of ₱10.17 million, accounting for 39% of Enterprise Services revenues. Revenues from this service line declined by 31% from ₱14.69 million in the first quarter of 2025. Business Solutions contributed revenues of ₱2.88 million, representing 11% of Enterprise Services revenues, a decline of 19% from ₱3.55 million in the comparable period in 2025. Meanwhile, XAIL generated revenues of ₱1.13 million, an increase of 17% from ₱0.96 million in the prior-year period.

Overall, the growth in IT Staff Augmentation and XAIL partially mitigated the decline in Enterprise Services revenues. However, these increases were not sufficient to fully offset the lower revenues from Custom Software Development and Business Solutions, resulting in the segment's overall 9% year-on-year decline.

Expenses

In PhP Millions	For the three-month periods ended March 31					
	2026		2025		Amount Change	% Increase (Decrease)
	Amount	Percentage	Amount	Percentage		
Expenses						
Cost of Services	32.20	63%	27.19	51%	5.01	18%
General and Administrative Expenses	18.97	37%	26.52	49%	(7.55)	(28%)
<i>Total Expenses</i>	51.17	100%	53.71	100%	(2.54)	(5%)

For the three months ended March 31, 2026, total expenses amounted to ₱51.17 million, representing a decrease of 5% from ₱53.71 million in the same period in 2025. The reduction in total expenses was primarily attributable to lower general and administrative expenses, partially offset by higher cost of services.

Cost of Services increased by 18% to ₱32.20 million from ₱27.19 million in the prior year period, accounting for 63% of total expenses compared to 51% in 2025. The increase was primarily driven by the higher benefits costs related to Allcare's HMO operations, the revenues of which significantly increased for the period.

General and Administrative Expenses decreased by 28% to ₱18.97 million from ₱26.52 million in the first quarter of 2025, reducing its share of total expenses from 49% to 37%. The decline was mainly attributable to the Company's continued cost management initiatives and lower overhead and administrative expenses during the period.

Overall, the decrease in general and administrative expenses more than offset the increase in cost of services, resulting in a modest reduction in total expenses for the period.

Cost of Services

In PhP Millions	For the three-month periods ended March 31					
	2026		2025		Amount Change	% Increase (Decrease)
	Amount	%	Amount	%		
Cost of Services						
Outside services	15.25	47%	9.77	36%	5.48	56%
Salaries, wages and employee benefits	14.02	44%	13.86	51%	0.16	1%
Consultancy fees	0.95	3%	0.48	2%	0.47	99%
Commission	0.74	2%	0.39	1%	0.36	93%
Others	1.23	4%	2.68	10%	(1.46)	(54%)
<i>Total Expenses</i>	32.20	100%	27.19	100%	5.01	18%

For the three months ended March 31, 2026, Cost of Services amounted to ₱32.20 million, representing an 18% increase from ₱27.19 million in the same period in 2025.

Outside Services remained the largest component of Cost of Services, amounting to ₱15.25 million, or 47% of total cost of services, representing a 56% increase from ₱9.77 million in the prior-year period. The increase was primarily due to higher third-party service costs incurred in delivering AllCare's healthcare-related services and other revenue-generating projects.

Salaries, Wages and Employee Benefits amounted to ₱14.02 million, accounting for 44% of total cost of services, compared to ₱13.86 million, or 51%, in the same period in 2025. The 1% increase reflects relatively stable personnel costs despite the Company's higher level of business activity during the period.

Consultancy Fees increased by 99% to ₱0.95 million from ₱0.48 million in the prior-year period, while Commission expense rose by 93% to ₱0.74 million from ₱0.39 million, primarily due to increased business development and sales-related activities.

Meanwhile, Other Costs decreased by 54% to ₱1.23 million from ₱2.68 million in the comparable period in 2025, partially offsetting the increases in the other cost components.

Overall, the increase in Cost of Services was largely driven by higher Outside Services costs associated with the growth of the Company's healthcare and enterprise service operations, while personnel costs remained relatively stable and lower Other Costs helped temper the overall increase in the Company's cost base

General and Administrative Expenses (GAEX)

In PhP Millions	For the three-month periods ended March 31					
	2026		2025		Amount Change	% Increase (Decrease)
	Amount	Percentage	Amount	Percentage		
General and Administrative Expenses						
Salaries, wages and employee benefits	13.20	70%	20.61	78%	(7.41)	(36%)
Outsourced services	1.12	6%	0.18	1%	0.94	538%
Dues and subscription	0.98	5%	1.55	6%	(0.57)	(37%)
Professional fees	0.86	5%	1.78	7%	(0.92)	(52%)
Others	2.81	15%	2.40	9%	0.41	17%
Total Expenses	18.97	100%	26.52	100%	(7.55)	(28%)

General and Administrative Expenses (GAEX) amounted to ₱18.97 million for the three months ended March 31, 2026, representing a 28% decrease from ₱26.52 million in the same period in 2025. The decline was primarily attributable to lower personnel costs, professional fees, and dues and subscriptions, reflecting the Company's continued cost optimization and operating efficiency initiatives.

Salaries, Wages and Employee Benefits remained the largest component of General and Administrative Expenses, amounting to ₱13.20 million, or 70% of total GAEX, compared to ₱20.61 million, or 78%, in the prior-year period. The 36% reduction was primarily due to lower personnel-related costs resulting from organizational streamlining and ongoing cost rationalization measures.

Outsourced Services increased significantly to ₱1.12 million, representing 6% of total GAEX, from ₱0.18 million, or 1%, in the same period in 2025. The 538% increase was mainly attributable to greater utilization of third-party service providers to support corporate and administrative functions.

Dues and Subscriptions decreased by 37% to ₱0.98 million from ₱1.55 million in the prior-year period, while Professional Fees declined by 52% to ₱0.86 million from ₱1.78 million, reflecting lower expenditures for these services during the quarter.

Meanwhile, Other General and Administrative Expenses increased by 17% to ₱2.81 million from ₱2.40 million in the comparable period in 2025.

Overall, the substantial reduction in personnel-related costs, together with lower professional fees and dues and subscriptions, more than offset the increase in outsourced services and other administrative expenses, resulting in a 28% year-on-year decline in General and Administrative Expenses.

Equity in Net Losses of Associates

For the three months ended March 31, 2026, the Company did not recognize any equity in net losses of associates, compared to ₱1.46 million in the same period in 2025 due to the sale of its stake in an affiliate and the full impairment of the other.

Finance Costs - net

Net Finance Costs amounted to ₱0.99 million for the three months ended March 31, 2026, representing a 12% increase from ₱0.88 million in the comparable period in 2025. The increase was primarily attributable to higher interest expense.

Other Charges (Income) - net

The Company recognized Net Other Charges of ₱2.38 million for the three months ended March 31, 2026, compared with Net Other Income of ₱1.61 million in the same period in 2025. The increase in net other charges by ₱3.98 million was primarily attributable to foreign exchange losses recognized during the period, arising from unfavorable movements in foreign exchange rates.

Loss Before Income Tax

As a result of the foregoing, the Company's Loss Before Income Tax improved to ₱5.55 million for the three months ended March 31, 2026, from ₱9.13 million in the same period in 2025, representing a 39% reduction in pre-tax losses. The improvement was primarily driven by the 16% increase in revenues, 10% growth in gross profit, 28% reduction in general and administrative expenses and the absence of equity losses from associates, partially offset by higher cost of services, net other charges and finance costs.

Provision for Income Tax

The Company recognized a Provision for Income Tax of ₱0.67 million for the three months ended March 31, 2026, compared with ₱0.30 million in the corresponding period in 2025. The increase was primarily attributable to the improved taxable earnings of certain operating subsidiaries during the period.

Net Loss

For the three months ended March 31, 2026, the Company reported a Net Loss of ₱6.22 million, an improvement of 34% from the ₱9.43 million net loss incurred in the same period in 2025. The lower net loss reflects stronger operating performance, supported by revenue growth, improved gross profit, lower operating expenses, and favorable non-operating results during the quarter.

Other Comprehensive Loss

Other Comprehensive Loss amounted to ₱6.73 million for the three months ended March 31, 2026, compared with ₱0.36 million in the same period in 2025. The increase was primarily attributable to further deterioration of the peso against both USD and SGD. The ₱/US\$ forex rate deteriorated further to ₱60.74/US\$1.00 in March 31, 2026 from ₱58.81/US\$1.00 in December 31, 2025. ₱/S\$ forex rate further weakened to ₱47.05/S\$1.00 from ₱45.82/S\$1.00.

Total Comprehensive Loss

As a result, the Company's Total Comprehensive Loss amounted to ₱12.95 million for the three months ended March 31, 2026, compared with ₱9.79 million in the corresponding period in 2025. While the Company's operating performance improved significantly during the quarter, the higher other comprehensive loss more than offset the improvement in net loss, resulting in a 32% increase in total comprehensive loss.

Financial Position

As of March 31, 2026, compared to December 31, 2025.

Assets

Cash

The Group's consolidated cash and cash equivalents amounted to ₱52.87 million as of March 31, 2026, representing an increase of ₱20.72 million, or 64%, from ₱32.15 million as of December 31, 2025. The increase was primarily driven by the proceeds from the sale of the Group's investment in SDI, which generated ₱16.84 million in cash. In addition, the Group generated ₱6.35 million in net cash from operating activities during the first three months of 2026, further strengthening its cash position.

Accounts and Other Receivables

The Group's consolidated accounts and other receivables amounted to ₱26.74 million and ₱20.03 million as of March 31, 2026, and December 31, 2025, respectively. The increase of ₱6.72 million was attributed to the overall increase in revenues causing the increase of trade receivables. Out of the consolidated accounts and other receivables, 82% or ₱22.03 million pertains to trade receivables – net.

Contract Assets

As of March 31, 2026, the Group's consolidated contract assets increased by 7% or ₱2.56 million, from ₱37.45 million as of December 31, 2025, to ₱40.02 million. Additional contract assets for the period were mostly from enterprise services. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

Other Current Assets

As of March 31, 2026, the Group's consolidated other current assets totaled ₱24.73 million, a minimal decrease of ₱0.37 million or 1% from its previous level on December 31, 2025 of ₱25.10 million.

Noncurrent Assets Held for Sale

In 2025, the Group reclassified its investment in and advances to its associate, SDI, as noncurrent assets held for sale following management's commitment to a plan to sell its interest in SDI, in accordance with PFRS 5. The sale was completed during the first quarter of 2026 following the execution of the Share Purchase Agreement. Consequently, noncurrent assets held for sale decreased from ₱16.84 million as of December 31, 2025 to nil as of March 31, 2026 upon the completion of the transaction.

Financial assets at FVOCI

This account pertains to quoted and unquoted equity investments in Club Punta Fuego and Zowdow Inc. As of March 31, 2026, carrying value and net unrealized loss on financial assets at FVOCI recognized in the consolidated statement of financial position remained unchanged from its previous level on December 31, 2025, which both amounted to ₱1.10 million.

Property and Equipment

The Group's consolidated property and equipment was ₱0.74 million on March 31, 2026, vis-à-vis ₱0.86 million as of December 31, 2025. Acquisitions during the three-month period ended March 31, 2026 amounted to ₱0.18 million. Depreciation expense amounted to ₱0.30 million and for the three-month periods ended March 31, 2026.

Right-of-use (ROU) Asset

Right-of-use asset as of March 31, 2026 and December 31, 2025 amounted to ₱1.04 million and ₱1.32 million, respectively. Depreciation expense recognized amounted to ₱0.28 million for the first three quarters of 2025.

Intangible Assets

As of March 31, 2026, intangible assets amounted to ₱45.88 million which decreased from December 31, 2025 balance of ₱45.95 million. The components are goodwill and developed software as of end of the first quarter.

- Goodwill pertains to excess of the acquisition cost over the fair value of the identifiable assets and liabilities of companies acquired by the Group. As of March 31, 2026, goodwill was at ₱45.59 million.
- Developed software pertains to corporate application software and licenses and other VAS software applications that are not integral to the hardware or equipment. As of March 31, 2026, net book value of developed software was ₱0.29 million. Amortization of developed software for the three-month period ended March 31, 2026, amounted to ₱0.07 million.

Other Noncurrent Assets

Other noncurrent assets amounted to ₱36.93 million and ₱35.92 million as of March 31, 2026 and December 31, 2025, with a mere 3% increase during the period.

Liabilities

Accounts and Other Payables

The Group's consolidated accounts and other payables amounted to ₱464.39 million as of March 31, 2026, representing a slight increase of ₱8.06 million, or 2%, from ₱456.33 million as of December 31, 2025. The increase was primarily attributable to higher constructive obligations and financial liabilities of ODX resulting from the translation adjustment, as well as increases in trade payables and taxes payable. These were partially offset by the reduction in amounts due to related parties following the repayment of advances from the Group's affiliate, CTX.

Advances from Stockholders

This account pertains to loan agreements entered into by the Parent Company amounting to ₱45.01 million as of March 31, 2026, compared with ₱45.76 million as of December 31, 2025. The decrease was primarily due to the repayment of ₱2.00 million in advances during the period, partially offset by the foreign exchange remeasurement of a U.S. dollar-denominated loan resulting from unfavorable movements in foreign exchange rates.

Loans Payable

The Group recorded ₱26.23 million in current loans as of March 31, 2026 and ₱26.18 million as of December 31, 2025. This is mainly attributable to the loans of Storm and Seer which are interest-bearing and short-term. Additions comprised of interest accretions and surcharges amounted to ₱0.05 million.

Contract Liabilities

The Group's consolidated contract liabilities as of March 31, 2026, amounted to ₱49.54 million, an increase of 63% from the December 31, 2025, figure of ₱30.37 million. Contract liabilities are collections from customers under business solutions and other services which have not qualified for revenue recognition.

Lease Liability

The changes in this account were primarily due to the recognition of interest accretion amounting to ₱21,826 and lease payments of ₱0.30 million during the period. As of March 31, 2026, the current and noncurrent portions of the lease liability amounted to ₱1.10 million and nil, respectively.

Pension Liability

The accrued pension of the Group was at ₱19.34 million as of March 31, 2026 and December 31, 2025, with no significant movement during the period.

Capital Deficiency

Total Capital Deficiency

The Group recorded total capital deficiency of ₱375.60 million as of March 31, 2026, a 4% increase from December 31, 2025 with a figure of ₱362.66 million. The increase is due to the total comprehensive loss recognized for the period.

Liquidity and Capital Resources

The Group's liquidity is primarily driven by cash flows from operating activities and cash reserves. The Group knows of no demands, commitments, events, or uncertainties that are reasonably likely to result in a material increase or decrease in liquidity. The Group is current on all its accounts. The Group has some bank debt through the Parent Company and Seer Technologies Inc. which are short term in nature. The Group is not in breach or default on any loan or other form of indebtedness.

Cashflows

In PhP Millions	For the three-month periods ended March 31	
	2026	2025
	Amount	Amount
Net cash used in Operating Activities	6.35	0.20
Net cash provided by Investing Activities	16.67	26.56
Net cash used in Financing Activities	(2.30)	(0.33)
Effect of foreign currency exchange changes in cash	-	0.43
Net increase in cash	20.72	26.86
Cash at beginning of period	32.15	32.31
Cash at end of period	52.87	59.18

Cash Flows from Operating Activities

For the first quarter of 2026, operating loss before changes in working capital of ₱1.87 million was coupled with the corresponding increase in receivables, other assets, contract assets and contract liabilities and decrease in account and other payables resulted in ₱7.02 million net cash used in operations. Together with interest received, interest expense and income taxes paid, this resulted in a net cash used in operating activities of ₱6.35 million.

Cash Flows from Investing Activities

The Group's consolidated cash flows provided in investing activities for the first three months of 2026 was ₱16.67 million compared to ₱26.56 million in the same period of 2025. This comprises proceeds from the disposal of noncurrent assets held for sale amounting to ₱16.84 million and acquisition of property and equipment amounting to ₱0.18 million.

Cash Flows from Financing Activities

The cash flow used in financing activities for the period ended March 31, 2026 was ₱2.30 million mainly from payments of advances from a stockholder and lease liability.

Capital Expenditure

The Group's capital expenditures for the three-month period ended March 31, 2026, and the year ended December 31, 2025, amounted to ₱0.18 million and ₱0.34 million, respectively.

Interest Coverage Ratio	(4.57x)	(9.37x)	(63.79x)

The key performance indicators disclosed below present the financial performance of the Group as a whole. These are different from those in the supplemental schedule of the consolidated financial statements which were prepared only for the analysis of financial performance attributable to the Parent Company.

The following are the key performance indicators of the Group and its majority-owned subsidiaries:

Liquidity Ratios

Current ratio as of March 31, 2026 and December 31, 2025 was 25% and 24%, respectively. Meanwhile, quick ratio was at 20% as of March 31, 2026 and 16% as of December 31, 2025. Liquidity ratios generally improved mainly due to increase in cash and receivables of the Group.

Asset-to-Equity Ratio

There was no significant change in the asset-to-equity ratio which stayed at 103% and 104% level as of March 31, 2026 and December 31, 2025, respectively.

Profitability Ratios

Profitability ratios such as net loss margin, operating loss margin, return on total assets and return on equity decreased to (14%), (8%), (3%) and 3% respectively from their prior year ratios. This is due to the lower net loss generated this first three months of 2026 compared with the same period of last year. Gross margin, on the other hand, decreased from 36% in 2026 to 34% in 2026.

Debt Ratio

Debt-to-equity on March 31, 2026, slightly improved to (2.72x) from (2.77x) as of December 31, 2025. The improvement was primarily driven by the reduction in the Group's loss before interest and taxes (EBIT), reflecting improved operating performance during the period. Although the ratio remained negative due to the Group's continued operating loss, the less negative ratio indicates an improvement in the Group's ability to cover its interest obligations.

The manner by which the Company calculates the foregoing indicators is as follows:

Current Ratios

1. Current ratio	$\frac{\text{Current assets}}{\text{Current liabilities}}$
2. Quick ratio	$\frac{\text{Current assets} - \text{Other current assets}}{\text{Current liabilities}}$

Asset-to-equity Ratio

$\frac{\text{Total assets}}{\text{Total equity attributable to Parent Company}}$
--

Profitability Ratios

1. Net income ratio	$\frac{\text{Net income attributable to Parent Company}}{\text{Service income} + \text{Sale of goods}}$
2. Gross margin	$\frac{(\text{Service income} + \text{Sale of goods}) - (\text{Cost of services} + \text{Cost of goods sold})}{\text{Service income} + \text{Sale of goods}}$
3. Operating margin	$\frac{\text{Earnings before interest, tax, depreciation and amortization}}{\text{Service income} + \text{Sale of goods}}$
4. Return on total assets	$\frac{\text{Net income attributable to Parent Company}}{\text{Average total assets}}$
5. Return on total equity	$\frac{\text{Net income attributable to Parent Company}}{\text{Average total equity attributable to the Parent Company}}$

Debt Ratios

1. Debt-to-equity ratio	$\frac{\text{Total Liabilities}}{\text{Total equity attributable to Parent Company}}$
Interest coverage ratio	$\frac{\text{Earnings before interest and tax}}{\text{Interest expense}}$

Other Disclosures:

- i. Liquidity. To cover its short-term funding requirements, the Group intends to use internally generated funds from operations or sale of assets, obtain additional advances from its stockholders, and negotiate for longer payment terms for its payables.
- ii. Events that will trigger Direct or Contingent Financial Obligation. There are no events that will trigger direct or contingent financial obligations that are material to the Group, including and default or acceleration of an obligation.
- iii. Material Off-balance sheet Transactions, Arrangements, Obligations. Likewise, there were no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the group with unconsolidated entities or other persons created during the reporting period.
- iv. Material Commitments for Capital Expenditure. There are no material commitments for capital expenditures.
- v. Material Events/ Uncertainties. There are no new trends, events, or uncertainties that are expected to have a material favorable or unfavorable impact on the Group's revenues from continuing operations.
- vi. Results of Operations. There were no significant elements of income or loss that did not arise from continuing operations.
- vii. Seasonality. The Group is not subject to the seasonality.

PART II--OTHER INFORMATION

There is no other information for this period not previously reported in SEC Form 17-C that needs to be reported in this section.
